VOLUME 22

CLARESHOLM, ALBERTA, FRIDAY, SEPTEMBER 17, 1926.

Number 38

The Men's and Boys' Store

Farmers and Harvesters

We carry a full line of harvest supplies. Overalls, Smocks, Shoes, Sox, Underwear, Blankets, Shirts, Sweaters, Gloves, etc.

When in need of a suit of clothes or winter overcoat, give us a call, we will be pleased to show you. We are agent for two clothing houses and will take your measure for a suit of clothes or overcoat.

We carry the famous Carr's Mackinaw Coats and Blankets. Our goods are selected from the best manufacturers of Canada and prices are right, none better.

C. J. BRAREN

CLARESHOLM LOCAL NEWS

Mrs. Jack Ross is very ill in the local hospital.

Mrs. Corby, from over the Barons way, is ill in the local hospital.

Dr. and Mrs. McMillan and family returned on Tuesday evening from their eastern trip.

Mr. and Mrs. Hunter McMicken, of Owen, are visiting at the home of Mr. and Mrs. F. H. Calahan.

On account of the School Fair Clareholm business places will close on Monday next from 12 to 2 o'clock.

The United Ladies' Aid intend holding their bazaar and tea in Harrison Hall on Saturday afternoon, November 24th.

Mr. and Mrs. D. McEwen returned on Saturday last from Banff, where they had spent an enjoyable two weeks.

Miss Madge Ruby of Lethbridge left for home on Monday evening after spending a week with Miss Nellie Wallis.

Alberta raised a bumper crop this year all right enough, but the wet weather and frosty weather are giving it an additional bump that are not appreciated.

The attraction at the Rex theater for Friday and Saturday nights this week will be "Sunset" with Pauline Starke, Conrad Nagel and Lucille Laverne. Adapted from the Broadway stage success by Lulu Vollmer. A Metro Goldwyn-Mayer picture.

This week has brought the heaviest frost of the fall. Tender garden stuff has been frozen and late grain that has been kept green by the rains is damaged. Owing to the long spell of wet weather grain has sprouted badly in the stock, resulting in loss in quantity and lowering of grade. Opinions vary as to the percentage of damage from this cause, but it will unquestionably be heavy.

Goodwin—Runions

A very quiet wedding took place on Sunday, September 5th, at 1 p.m. in the Anglican church at Midnapore, when Edna Mary, eldest daughter of Mr. and Mrs. A. E. Runions of Clareholm, became the bride of Mr. Roger J. Goodwin, youngest son of Mr. and Mrs. L. Goodwin of Kaslo, B. C. Archdeacon Timms officiating.

The bride was beautifully gowned in pale blue georgette embroidered in gold and carried a shower bouquet of Ophelia roses and lily of the valley. She was attended by her sister Norma, who wore pink georgette and carried pink carnations. The groom was attended by the bride's brother Harold Runions of Eskville.

After the ceremony a dainty supper was served at the home of Mr. and Mrs. J. Bartley, Scarborough avenue, Calgary.

Mr. and Mrs. Goodwin left later for British Columbia where they will spend their honeymoon. They will make their home in Calgary.

Liberals Win Decisive Victory

Liberals Have 119 Seats With 11 Liberal-Progressives

Tuesday's election resulted in a decisive victory for the Liberal forces, the Mackenzie King government being returned with a safe majority.

Premier Meighen was defeated in his own riding and almost his entire cabinet met defeat. In the prairie provinces R. H. Bennett of Calgary was the only Conservative elected.

The returns in Alberta show 3 Liberals elected, 1 Conservative, 11 C.P.A., and 1 Labor. In Macleod riding G. G. Coote, C.P.A. candidate, was elected by a large majority.

Ottawa, Sept. 16.—Final returns received last night strengthened the position of the Liberal party. The returns are that the Liberal party will have 119 straight representatives in the sixteenth parliament, while the Conservatives will have 91, Liberal-Progressives 11, and Progressives 8. The remainder will be made up of United Farmers of Alberta, Laborites and Independents.

School Fair September 20

The annual School Fair will be held Monday, Sept. 20th, at the School of Agriculture grounds. About fifteen schools will take part in it. Plans are being made to have the places of business in town closed from 12 to 4 p.m. to enable the public to visit the fair. All are invited to attend as a large crowd will be an important factor in encouraging the boys and girls to do their best in all activities.

The usual method of providing a lunch for the rural pupils is changed this year. It was thought that each school might organize a picnic among themselves and this would prove an enjoyable part of the day along with the fair. Hot cocoa will be provided.

Another feature of interest is a carefully planned programme of sports, including indoor baseball, basketball, races and group games, which it is hoped will give the children an enjoyable day.

The committee would like to carry out the following schedule as nearly on time as possible: Judging school exhibits 11 a.m.

Judging vegetables 11 a.m.

Picnic hour for the schools 12 to 1 p.m.

Parade 1:30 p.m.

Livestock and poultry judging 2:30 p.m.

Sports and games will take place in the morning and afternoon.

The doors to exhibits will open about 2:30 p.m. when judging is completed in this section.

Card of Thanks

We wish to sincerely thank our friends for their kindness and sympathy during our recent bereavement, and also for the many beautiful floral tributes.

Mrs. Wm. Moffatt and Family

The ladies of St. John's Guild wish to announce the date of their annual bazaar as Saturday, December 4th.

School Books

Dairy Industry in Canada Is Forging Ahead, Particularly in The Western Provinces

Indications continue to be given of Canada's continued advance in influence in the dairy industry. In British Columbia, has just produced another world's champion cow after this honor has fallen in the past to many other Canadian provinces as well as, on another occasion to the Pacific coast provinces. Canadian dairy stock has come to be in demand in many countries and recent purchases have been made by Russia, which business it is anticipated may reach important proportions. Production of dairy products continues to increase, particularly in the western provinces, which have not seasonally made a mark in this industry. The increasing volume of export trade is reflected in the expansion of storage facilities at Canada ports.

Butter production in Canada during 1925, according to the final report of the federal department of agriculture, amounted to 190,623,752 pounds, as compared with 178,892,927 in the previous year. Ontario and Quebec rank first and second in production, the former province leading with an output of 60,681,111 pounds, closely followed by the latter with 58,842,500 pounds. In order from the three prairie provinces, Alberta leading with 12,009,000 pounds; Saskatchewan accounting for 12,042,275 pounds; and Manitoba coming fifth with 12,662,212 pounds. Nova Scotia's production was 2,091,146 pounds; that of British Columbia, 1,180,600 pounds; Prince Edward Island, 1,282,151 pounds; and New Brunswick, 1,232,257 pounds.

From all over the Dominion come reports of yet further augmented production this year, especially in the western provinces, where the remarkable progress achieved in the dairy industry in the post-war period is being continued without abatement. Saskatchewan, for instance, in the first five months of the present year produced 2,682,283 pounds of butter as against 2,851,584 pounds in the period in 1925, an increase of 35.6 per cent. Looking back to the years before the war, the advance of the Dominion in this connection has been quite outstanding. Canadian butter production in 1915 was just 82,991,423 pounds, that of a decade later showing an increase of 135 per cent.

One Farm That Pays

Operated Near Philadelphia by Immature of Boy's School

Nearly every farmer will tell you that the best way to run a farm is to have a boy on it. A farm close to Philadelphia which last year was credited with a profit of \$30,000.

That was done on 400 acres. What was the secret? It was operated by nearly 600 schoolboys who received \$100 for their labor.

No it seems that the trouble with farming is high cost of labor rather than high cost of things farmers must buy.

That farm which made a net profit of \$30,000 belongs to the Glen Mills school, and not one cent of the profits from this Delaware county farm was placed in the profit column, but sent to the school.

Expenses fell just short of \$10,000, and that sum was subtracted from the \$40,000 which the farm produced in 1925.

Pennsylvania could afford to run free express trains to carry all our state school workers out to alien \$100 in one low school when applied to an unfortunates had will provide golden results—Philadelphia is called.

An Excellent Showing

T. B. Test in New Saskatchewan Free Area Is Satisfying

out of 2,500 herd of cattle recently reported as tested for tuberculosis in the New Saskatchewan T. B. area east of Lake Manitoba. Last year 290 herds have been discovered, or only one and a half per cent. This is an excellent showing in comparison with similar tests in T. B. free areas of Manitoba, Quebec and British Columbia, and is not far behind the phenomenal record set by Prince Edward Island.

Wheat

The accused—was not going to miss an hour—did not want to be in fact, when an officer came up I was almost at a standstill. The magistrate—I must stop this or you will be backing into some thing.

Ten dollars.

By means of active radium injected into the body, the rate of blood flow in the human system has been measured accurately for the first time.

Minerals in Livestock Feeding

The Major Consideration Is Better Feeding Of All Livestock

Mr. George H. Rowland, Dominion animal husbandman, contributes a decidedly illuminative article to *Seasonable Hints for July, August, September and October on "Minerals in Livestock Feeding."* Horses, cattle, sheep and swine are all dealt with separately. Scientifically is general advice. Pulverized charcoal may be used for both horses and cattle. Lime may be needed for horses in some districts and can be administered as ground limestone or as lime water in the drinking water. It is best fed after thorough leguminous roughage. Pregnant mares, Mr. Rowland says, are benefited by potassium iodide crystals administered at the rate of one eighth of an ounce (a small teaspoon, level) on the first and fifteenth of each month in the drinking water. This practice should be started in November and continued until the end of the year. Feeding edible bone meal or bone meal at the rate of a pound to a ton of a half per hundred pounds of meat is good for cattle.

In a pithy sentence the animal husbandman suggests that the major consideration is better feeding, particularly as applied to calves, growing stock and dry cows.

Self, perfecting milk salt, seems to meet the demands of sheep, but the administration of minute quantities of iodine to pregnant ewes will prevent abortion.

Since being rapid in growth require much lime, bone phosphates, etc., in connection with which Mr. Rowland says there is no doubt that more attention to mineral supply would result in stronger litters, greater fertility in broods, and more and better developed calves in market pigs. Alfalfa or clover hay should be before the brood sow all winter and are also good for wintered market pigs. Tannage or meat meal, 2 to 5 per cent, for the brood sow and up to 10 per cent, for the feeder hog who is milk fed, will solve soluble mineral salts. Edible bone meal is especially good for the brood sow, so is a small quantity of iodine (3 lb. per hundredweight of meal). A stock solution of one ounce of potassium iodide to one gallon of water, given one tablespoonful to the brood sow daily in her slop, is calculated to prevent hither litters and to be generally beneficial.

Hutterite Colony

Operates Own Stores and Other Commercial Enterprises

So successful have the Hutterites been with their colony, some 40 miles east of Calgary, that they have paid more than \$150,000 cash for lands west of Bellevue, 45 miles north of the colony, to a group of 254 American settlers. These farmers, accompanied their wives and families, represent a population of 541, an increase of 40 per cent, over the same period a year ago. They brought with them cash and effects valued at \$100,000, and have effected the Pargo agency alone in the single month of July amounted to \$885,250. The Pargo agency is one of 18 maintained in the United States by the Canadian department of immigration and colonization.

Trans-Pacific Boats

Work in B.C. During Summer and in Australia During Winter

Boats have not yet given notice of striking for an eight-hour day but they may yet get together and protest against the double-season work started by an ingenious bookkeeper in British Columbia. To make his bees gather two crops of honey per year instead of one he has adopted the plan of keeping them in British Columbia during our summer months and then shipping them across the equator down to Australia when winter comes to the Northern Hemisphere. After the voyage across the Pacific the bees are supposed to emerge from their hives and start to work on their second season of the year. How long the bookkeeper intends to keep up this shuttle system has not been learned—New York World.

Settlers From Michigan

In the past fourteen years Michigan has sent more of its citizens to become Canadians than any other state of the Union, according to the department of immigration and colonization. The number being 87,167. Minnesota sent 84,952; Massachusetts, 77,750; Washington, 75,446; New York, 74,067; and North Dakota, 51,462. The other states vary from 2,600 to a few hundred.

The largest seaplane ever constructed in Germany is being built for the German civil air service. It will carry 40 passengers in addition to freight and will be propelled by seven engines totalling from 2,600 to 4,600 horsepower.

Crop Acreage in Manitoba

Aggregate Slightly Less Than Two Percent Smaller Than 1925

The Manitoba department of agriculture states that final figures as to acreage sown this year in Manitoba to wheat, oats, barley, fall rye, spring rye and flax show the aggregate acreage is a little less than two per cent smaller than it was in 1925, being very close to the same acreage as in 1924. In wheat the southern districts of Manitoba show a greater acreage this year than last, but there is a shrinkage in the northern parts. Oats show a slight decrease practically in all districts. Though barley has increased slightly in the central western part of Manitoba, it is down almost two per cent in the whole province. There is quite a drop in rye, but an increase of about 40 per cent in flax. On the whole, the acreages of 1925 and 1926 are more nearly alike than the acreages of any two successive years for some time. The figures were compiled from individual returns submitted by over 15,000 farmers and the total number of farmers estimated as being in the province in 1925 is 51,100.

For the purpose of the province is divided into fourteen crop districts.

Argentine Improves Quality Of Butter

Factories Equipped With Everything Necessary for Producing Cream

Since October, 1924, when the Argentine department of agriculture began its campaign for the improvement of Argentine butter, 25 of the 62 butter factories in that republic have been equipped with the necessary installations for the neutralization and pasteurization of all the cream they use in butter making. The resulting improvement in quality and uniformity has helped materially in marketing Argentine butter in the principal foreign markets, England. The results of the campaign have been so satisfactory that it is now predicted that in another year every important butter manufacturer in Argentina will be treating all cream according to this system.

Egg Production Increases

Canadians Now Eating More Eggs Than In 1920

Egg production in Canada has increased to over one hundred million dozen, or seventy per cent, since 1920, according to a government report. This enormous volume of eggs has been consumed almost entirely in Canada as a result of the improved quality and increased consumption brought about by the application of the egg regulations. In 1920, Canadians consumed only 16.8 dozen eggs per capita, while in 1925 the per capita consumption was 25.5 dozen.

Possibilities Of Beet Culture And Beet Sugar Manufacture Throughout Western Canada

To Send Home Exhibit

Saskatchewan Beekeepers to Enter Exhibit at Toronto Exhibition

In response to a letter from F. H. Auld, secretary of agriculture for Saskatchewan, to Dr. S. A. Merkle, secretary of the Saskatchewan Beekeepers Association, asking Saskatchewan beekeepers to send an exhibit of honey to the Canadian National Exhibition, to be held in Toronto in a few weeks' time, the executive of the provincial association are making plans to have this exhibit sent. The department of agriculture has already offered to pay the cost of transportation of this exhibit.

This will be the first time that an exhibit of honey from Saskatchewan will be on display at the exhibition in Toronto. One thousand pounds of honey will make up the exhibit and the complete list of exhibitors in the provinces of the Dominion, individuals cannot enter.

Gives Splendid Returns

Butter Pays Farmer Better Than Any Product He Markets

The last time some other business anxious to establish sugar factories in other districts of the Canadian west, the Saskatchewan conditions are combining to bring them to the decision to take this step. That "well given a half done" every increase of being so greatly applicable to the production of sugar beets and beet sugar in Western Canada.

So successfully in Southern Alberta has given a tremendous impetus to attention to the possibilities of beet culture in the province.

In consideration of the expressed desire of other industrial organizations to locate in Canada, this new and valuable activity, leading on many agricultural and industrial benefits in its wake, is due for wide expansion.

Manitoba, through the experimental farms in the province, has long been experimenting with sugar beets, mainly with the object of testing the growing varieties for manufacturing purposes, with results that have been given in the past.

Manitoba Sugar Company district, which has been growing the beets in the province could meet factory requirements. The first really serious investigation into the growing of beets in Manitoba was undertaken in 1925.

The Manitoba Sugar Company district, which has been growing the beets in the province could meet factory requirements. The first really serious investigation into the growing of beets in Manitoba was undertaken in 1925.

Expect to Ship One Million Dollars Worth of Hops From Prince Albert District

Hops to the value of \$100,000 were shipped from the Prince Albert district in 1925. This sum was far in advance of that received the previous year and the increase was due to a considerable extent to the activities of the agricultural section housing hop production. This year the hop harvesters' slogan is one million dollars worth of hops, and from present indications the hope is more than likely to be attained.

A species of bamboo with a square stem grows in Japan.

Boosting Hog Production

Teen-Age Boys For Canadian Farms

A party of 20 boys aged 15-17 years, left Southampton recently for Canada on board the Canadian Pacific liner *Montenapoli*. The boys who have each received free passage under the Dominion Government Act are being sent out under the supervision of a government farm, "Vinny Ridge," near Guelph, Ontario, from where they will be placed on selected farms and receive after care and supervision from the Ontario Government for a period of three years.

Sugar manufactured in Western Canada from sugar beets grown in that territory, is now on the market and the whole of the prairie provinces is claimed over the successful launching of the sugar factories in the West. Alberta, there is general enthusiasm over the prospect opening out of beet sugar production in Western Canada on a very substantial scale, for it is confidently felt that this is but the initial step in a great combined agricultural and industrial movement, the first of a chain of factories which will come to dot Southern Alberta from the main line of the Canadian Pacific Railway to the international boundary, and spread eastward into sections of the prairie provinces of the West.

There is every reason for this optimistic attitude. The pioneer companies which have been responsible for the first Alberta factories have declared their willingness and desire to expand through the erection of other factories in the Southern Alberta area, and all conditions are such as to induce them to carry out this programme of expansion. It is known that there are other companies anxious to establish sugar factories in other districts of the Canadian west, and the conditions are such as to induce them to take this step. That "well given a half done" every increase of being so greatly applicable to the production of sugar beets and beet sugar in Western Canada.

So successfully in Southern Alberta has given a tremendous impetus to attention to the possibilities of beet culture in the province.

The Liberal victory at the polls on Tuesday was decisive in all respects. The party held its own in Quebec, repulsing every effort of the Conservatives to make gains in that province. It added to its strength in the Maritimes. Not only did the Conservatives fail to make inroads upon Quebec, but they failed to hold what they had in Ontario. Canada is assured of stable government, though Mr. Meighen, who so persistently advocated it, is not to provide it. Liberals and Liberal-Progressives will have complete control of the new House with seven friends. Progressives and Independents to be counted on for steady support. Most of the U. F. A. members elected in Alberta, as well as the Labor members, have already shown themselves to be in sympathy with legislation advanced by the late King Government.

To the Electors of the Macleod Federal Constituency:

We are unable to thank you all individually so we are taking this way of expressing our thanks to all the electors for their generous support of our candidate, Mr. G. C. Coote.

We also wish to express our gratitude for the splendid work done by many workers throughout the constituency who spent much energy in furthering his candidature.

Whether you are farmer, townsmen or laborers we wish you to feel that Mr. Coote is your representative and we hope you will use the utmost freedom in presenting your problems to him.

On behalf of the Board of Directors of the Macleod Federal Constituency Association of the U. F. A.,
Hugh E. Spencer, Secy.

I wish to thank all those who supported me in the recent election, and particularly those who gave so generously of their time in assisting to achieve the splendid results which we secured at the polls on September 14.

Ancient and Modern Meet in Rockies

Upper: Leather spring coach used to travel in Rockies before the motor car age.
Lower: Left—Modern right-turning unit of today.
Lower: Right—Motor car of 1902, used in the Canadian Rockies.

As the evening shadows began to lengthen across the Bow Valley in the Canadian Rockies on the last day of May, a diminutive four-wheel, run-of-the-mill motor car of 1902 vintage chugged through the portals of the Rockies into Banff, there to join the throng of motor cars on Banff Avenue and speedily form a historic pageant indicating the developments in motor transportation during twenty-four years.

As it happens at such times, the shades of the past arose to recall the memories of old-timers and bring forth reminiscences indicating the progress made within recent years. And so with the shades of the past evoked by one of the first "horses" carriages, mingling with the glittering host of the modern age.

When at last glittered with newness the mountain valleys knew not of the oil and gasoline and the ordered cars of the exhaust, the old-timers' memories said. No fine pavements such as at present grace the streets of the famous mountain resort, smoothed out the irregularities. The dirt surface of Banff Avenue knew only pedestrian, saddle and pack-paths, and the iron tired wheels of the lumbering leather spring coach, used as the first sight-seeing vehicle in the Rockies.

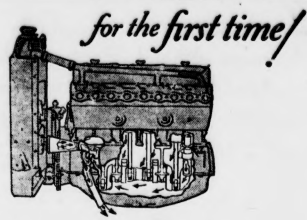

In 1916, the Canadian Government opened the park gates to motor travel. In 1925, the motor sight-seeing equipment, used to carry passengers by motor

through the Rockies from the Banff Springs Hotel to the chain of other Canadian Pacific railway hotels and bungalow camps, numbered a hundred modern motor cars and eight spring coaches. In 1926, the system carried 220,000 passengers a total of approximately a million miles in three of Canada's mountain national parks. Thirty-six thousand motor cars, carrying 126,000 holiday-makers, passed through the gates of the Kootenay and Banff National Parks during the same season.

On August 10, the new Lake Louise to Field Highway was opened to the motorists, cutting the three national parks by motor road and increasing the grand total of modern highway in the mountains to approximately 230 miles. But when the diminutive motor vehicle was the latest creation in automobile, the mileage of roads in the mountains could be counted the fingers of both hands.

The day following its arrival in Banff, R. Stacey, Kelso, Washington, filled the gas tank of the 1902 car and set out over the Banff-Windermere Highway enroute for home. He is driving the car from Edmonton, Alberta, where it recently won the first prize in the light car class of the old car contest conducted by the Edmonton Journal.

In crossing the two summits on the highway, a modern car was called into action to aid the ancient vehicle over the top. By afternoon it reached Kootenay National Park, where the owner called it a day after covering ninety miles.

a vacuum cleaned crank case

McLaughlin-Buick's new Vacuum Ventilator ends crank-case dilution. It removes the moisture that ordinarily collects and destroys the lubricating effectiveness of your oil.

Now, you can leave your crankcase oil unchanged for three months, and for several thousand miles, without fear of engine injury.

There is not a single moving part in the McLaughlin-Buick Vacuum Ventilator. It functions automatically and requires absolutely no attention.

The 1927 McLaughlin-Buick is one of the greatest cars ever built. Greatest in performance—greatest in value. Come in and see it and drive it. There is no obligation!

A FINE BATHROOM

Modern fixtures have another advantage—they are easier to keep clean than the old-fashioned kind. Those beautiful smooth white surfaces can be kept in a glossy condition with very little care—and there are no difficult corners where only an acrobat could hope to clean successfully. Drop in and see our display of bathroom fixtures.

No Wonder Canadians are Handsome

As well as an assistant, the country's development in many other ways.

Paul C. Fann, as he is known in Montreal, is a graduate of Chinese university, the son of a Mandarin, and just 26 years old. For two and a half years, under an arrangement between the Governments of China and Canada, he has been making a study of the Canadian Pacific Railway system with the idea of acquiring practical knowledge that he hopes to use in his native country.

He and several other young Chinese students arrived in Montreal in December 1925, and since his stay in Montreal, Mr. Fann has been employed in the Angus shops and various departments of the Railway in Windsor Street Station, Montreal.

Mr. Fann has also been a student at McGill University, where he has been studying for the degree of A.M.A. which he hopes to receive in the Fall, before returning to his native land. Mr. Fann leaves the Canadian Pacific Railway Company at the end of this month and will travel through Canada during the summer. The building in the photograph is the Windsor Street Station, Montreal, where Mr. Fann received most of his Canadian Pacific training.

Alberta And Saskatchewan

Two Western Canadian Provinces Have Attained Their Majority

The natural resources influence service of the department of the interior at Ottawa says.

The two Canadian provinces of Alberta and Saskatchewan are about to attain their majority. On September 1st they will be 21 years of age, having been founded in 1905 from the districts of Assiniboia, Saskatchewan, Alberta and Manitoba and granted the rights of self-government by representative bodies elected to their respective legislative assemblies as in the other provinces. Alberta has an area of 252,285 square miles, while Saskatchewan's area is 257,700 square miles.

These provinces extend from the 49th to the 60th parallel of latitude, or 60 miles and each is more than twice as large as the combined areas of England, Wales, Scotland and Ireland.

Now that these two members of the confederation of Canadian provinces are entering the adult stage, some comparative statistics showing their growth will be of interest. In Alberta in 1906 had a population of 185,112, whereas its estimated population is now 675,000. In 1906 Calgary had a population of 11,697 and Edmonton 11,667. Now each of those cities has over 60,000 population. In 1905, Alberta had 1,060 miles of railway, now it is served by over 5,000 miles of railway lines.

When Alberta became a province it had 112,525 acres of wheat, 618,521 acres in all crops and the wheat production was 2,055,517 bushels.

In 1925, 5,159,179 acres were seeded in wheat and 10,000,000 in all crop lands while the wheat crop amounted to 10,925,000 bushels. The 1916 crop was over 10,000,000 bushels.

When Alberta became a province it was noted for its ranching with millions of acres of unfenced prairie. In 1906 it had 1,555,722 acres, whereas in 1925 it had 1,555,722 acres.

The contrast is even more marked when the cattle and sheep numbers are compared. For these two years were 101,245 and 160,722 respectively.

In 1906 the total for horses, cattle, sheep and swine was 1,145,855. In 1925 it was 3,471,217.

The growth of the dairy industry is most remarkable. In 1905 the production of creamery butter and cheese was practically negligible. In 1924, the first year for which quantities are given, Alberta produced 22,258,588 lbs. of creamery butter and 1,214,739 lbs. of cheese.

Alberta's coal resources are very well known throughout the recent discussions as to the feasibility of supplying Ontario's needs and it is interesting to note that in 1905 only 22,247 tons of coal were produced, whereas in 1925 the total was 7,500,000 tons and in 1925, 6,648,922 tons.

Alberta's timber is very much greater than is shown by those figures and with almost unlimited resources, expansion of the timber industry awaits the development of new markets.

Saskatchewan has kept pace with Alberta in growth. In 1905 its population was 257,302, now it is estimated population is 675,000.

Montreal, 1906, had a population of 2,000 in 1905, 8,100 in 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 2632, 2633, 2634, 2635, 2636, 2637, 2638, 2639, 2640, 2641, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 2651, 2652, 2653, 2654, 2655, 2656, 2657, 2658, 2659, 2660, 2661, 2662, 2663, 2664, 2665, 2666, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674, 2675, 2676, 2677, 2678, 2679, 2680, 2681, 2682, 2683, 2684, 2685, 2686, 2687, 2688, 2689, 2690, 2691, 2692, 2693, 2694, 2695, 2696, 2697, 2698, 2699, 2700, 2701, 2702, 2703, 2704, 2705, 2706, 2707, 2708, 2709, 2710, 2711, 2712, 2713, 2714, 2715, 2716, 2717, 2718, 2719, 2720, 2721, 2722, 2723, 2724, 2725, 2726, 2727, 2728, 2729, 2730, 2731, 2732, 2733, 2734, 2735, 2736, 2737, 2738, 2739, 2740, 2741, 2742, 2743, 2744, 2745, 2746, 2747, 2748, 2749, 2750, 2751, 2752, 2753, 2754, 2755, 2756, 2757, 2758, 2759, 2760, 2761, 2762, 2763, 2764, 2765, 2766, 2767, 2768, 2769, 2770, 2771, 2772, 2773, 2774, 2775, 2776, 2777, 2778, 2779, 2780, 2781, 2782, 2783, 2784, 2785, 2786, 2787, 2788, 2789, 2790, 2791, 2792, 2793, 2794, 2795, 2796, 2797, 2798, 2799, 2800, 2801, 2802, 2803, 2804, 2805, 2806, 2807, 2808, 2809, 2810, 2811, 2812, 2813, 2814, 2815, 2816, 2817, 2818, 2819, 2820, 2821, 2822, 2823, 2824, 2825, 2826, 2827, 2828, 2829, 2830, 2831, 2832, 2833, 2834, 2835, 2836, 2837, 2838, 2839, 2840, 2841, 2842, 2843, 2844, 2845, 2846, 2847, 2848, 2849, 2850, 2851, 2852, 2853, 2854, 2855, 2856, 2857, 2858, 2859, 2860, 2861, 2862, 2863, 2864, 2865, 2866, 2867, 2868, 2869, 2870, 2871, 2872, 2873, 2874, 2875, 2876, 2877, 2878, 2879, 2880, 2881, 2882, 2883, 2884, 2885, 2886, 2887, 2888, 2889, 2890, 2891, 2892, 2893, 2894, 2895, 2896, 2897, 2898, 2899, 2900, 2901, 2902, 2903, 2904, 2905, 2906, 2907, 2908, 2909, 2910, 2911, 2912, 2913, 2914, 2915, 2916, 2917, 2918, 2919, 2920, 2921, 2922, 2923, 2924, 2925, 2926, 2927, 2928, 2929, 2930, 2931, 2932, 2933, 2934, 2935, 2936, 2937, 2938, 2939, 2940, 2941, 2942, 2943, 2944, 2945, 2946, 2947, 2948, 2949, 2950, 2951, 2952, 2953, 2954, 2955, 2956, 2957, 2958, 2959, 2960, 2961, 2962, 2963, 2964, 2965, 2966, 2967, 2968, 2969, 2970, 2971, 2972, 2973, 2974, 2975, 2976, 2977, 2978, 2979, 2980, 2981, 2982, 2983, 2984, 2985, 2986, 2987, 2988, 2989, 2990, 2991, 2992, 2993, 2994, 2995, 2996, 2997, 2998, 2999, 3000, 3001, 3002, 3003, 3004, 3005, 3006, 3007, 3008, 3009, 3010, 3011, 3012, 3013, 3014, 3015, 3016, 3017, 3018, 3019, 3020, 3021, 3022, 3023, 3024, 3025, 3026, 3027, 3028, 3029, 3030, 3031, 3032, 3033, 3034, 3035, 3036, 3037, 3038, 3039, 3040, 3041, 3042, 3043, 3044, 3045, 3046, 3047, 3048, 3049, 3050, 3051, 3052, 3053, 3054, 3055, 3056, 3057, 3058, 3059, 3060, 3061, 3062, 3063, 3064, 3065, 3066, 3067, 3068, 3069, 3070, 3071, 3072, 3073, 3074, 3075, 3076, 3077, 3078, 3079, 3080, 3081, 3082, 3083, 3084, 3085, 3086, 3087, 3088, 3089, 3090, 3091, 3092, 3093, 3094, 3095, 3096, 3097, 3098, 3099, 3100, 3101, 3102, 3103, 3104, 3105, 3106, 3107, 3108, 3109, 3110, 3111, 3112, 3113, 3114, 3115, 3116, 3117, 3118, 3119, 3120, 3121, 3122, 3123, 3124, 3125, 3126, 3127, 3128, 3129, 3130, 3131, 3132, 3133, 3134, 3135, 3136, 3137, 3138, 3139, 3140, 3141, 3142, 3143, 3144, 3145, 3146, 3147, 3148, 3149, 3150, 3151, 3152, 3153, 3154, 3155, 3156, 3157, 3158, 3159, 3160, 3161, 3162, 3163, 3164, 3165, 3166, 3167, 3168, 3169, 3170, 3171, 3172, 3173, 3174, 3175, 3176, 3177, 3178, 3179, 3180, 3181, 3182, 3183, 3184, 3185, 3186, 3187, 3188, 3189, 3190, 3191, 3192, 3193, 3194, 3195, 3196, 3197, 3198, 3199, 3200, 3201, 3202, 3203, 3204, 3205, 3206, 3207, 3208, 3209, 3210, 3211, 3212, 3213, 3214, 3215, 3216, 3217, 3218, 3219, 3220, 3221, 3222, 3223, 3224, 3225, 3226, 3227, 3228, 3229, 3230, 3231, 3232, 3233, 3234, 3235, 3236, 3237, 3238, 3239, 3240, 3241, 3242, 3243, 3244, 3245, 3246, 3247, 3248, 3249, 3250, 3251, 3252, 3253, 3254, 3255, 3256, 3257, 3258, 3259, 3260, 3261, 3262, 3263, 3264, 3265, 3266, 3267, 3268, 3269, 3270, 3271, 3272, 3273, 3274, 3275, 3276, 3277, 3278, 3279, 3280, 3281, 3282, 3283, 3284, 3285, 3286, 3287, 3288, 3289, 3290, 3291, 3292, 3293, 3294, 3295, 3296, 3297, 3298, 3299, 3300, 3301, 3302, 3303, 3304, 3305, 3306, 3307, 3308, 3309, 3310, 3311, 3312, 3313, 3314, 3315, 3316, 3317, 3318, 3319, 3320, 3321, 3322, 3323, 3324, 3325, 3326, 3327, 3328, 3329, 3330, 3331, 3332, 3333, 3334, 3335, 3336, 3337, 3338, 3339, 3340, 3341, 3342, 3343, 3344, 3345, 3346, 3347, 3348, 3349, 3350, 3351, 3352, 3353, 3354, 3355, 3356, 3357, 3358, 3359, 3360, 3361, 3362, 3363, 3364, 3365, 3366, 3367, 3368, 3369, 3370, 3371, 3372, 3373, 3374, 3375, 3376, 3377, 3378, 3379, 3380, 3381, 3382, 3383, 3384, 3385, 3386, 3387, 3388, 3389, 3390, 3391, 3392, 3393, 3394, 3395, 3396, 3397, 3398, 3399, 3400, 3401, 3402, 3403, 3404, 3405, 3406, 3407, 3408, 3409, 3410, 3411, 3412, 3413, 3414, 3415, 3416, 3417, 3418, 3419, 3420, 3421, 3422, 3423, 3424, 3425, 3426, 3427, 3428, 3429, 3430, 3431, 3432, 3433, 3434, 3435, 3436, 3437, 3438, 3439, 3440, 3441, 3442, 3443, 3444, 3445, 3446, 3447, 3448, 3449, 3450, 3451, 3452, 3453, 3454, 3455, 3456, 3457, 3458, 3459, 3460, 3461, 3462, 3463, 3464, 3465, 3466, 3467, 3468, 3469, 3470, 3471, 3472, 3473, 3474, 3475, 3476, 3477, 3478, 3479, 3480, 3481, 3482, 3483, 3484, 3485, 3486, 3487, 3488, 3489, 3490, 3491, 3492, 3493, 3494, 3495, 3496, 3497, 3498, 3499, 3500, 3501, 3502, 3503, 3504, 3505, 3506, 3507, 3508, 3509, 3510, 3511, 3512, 3513, 3514, 3515, 3516, 3517, 3518, 3519, 3520, 3521, 3522, 3523, 3524, 3525, 3526, 3527, 3528, 3529, 3530, 3531, 3532, 3533, 3534, 3535, 3536, 3537, 3538, 3539, 3540, 3541, 3542, 3543, 3544, 3545, 3546, 3547, 3548, 3549, 3550, 3551, 3552, 3553, 3554, 3555, 3556, 3557, 3558, 3559, 3560, 3561, 3562, 3563, 3564, 3565, 3566, 3567, 3568, 3569, 3570, 3571, 3572, 3573, 3574, 3575, 3576, 3577, 3578, 3579, 3580, 3581, 3582, 3583, 3584, 3585, 3586, 3587, 3588, 3589, 3590, 3591, 3592, 3593, 3594, 3595, 3596, 3597, 3598, 3599, 3600, 3601, 3602, 3603, 3604, 3605, 3606, 3607, 3608, 3609, 3610, 3611, 3612, 3613, 3614, 3615, 3616, 3617, 3618, 3619, 3620, 3621, 3622, 3623, 3624, 3625, 3626, 3627, 3628, 3629, 3630, 3631, 3632, 3633, 3634, 3635, 3636, 3637, 3638, 3639, 3640, 3641, 3642, 3643, 3644, 3645, 3646, 3647, 3648, 3649, 3650, 3651, 3652, 3653, 3654, 3655, 3656, 3657, 3658, 3659, 3660, 3661, 3662, 3663, 3664, 3665, 3666, 3667, 3668, 3669, 3670, 3671, 3672, 3673, 3674, 3675, 3676, 3677, 3678, 3679, 3680, 3681, 3682, 3683, 3684, 3685, 3686, 3687, 3688, 3689, 3690, 3691, 3692, 3693, 3694, 3695, 3696, 3697, 3698, 3699, 3700, 3701, 3702, 3703, 3704, 3705, 3706, 3707, 3708, 3709, 3710, 3711, 3712, 3713, 3714, 3715, 3716, 3717, 3718, 3719, 3720, 3721, 3722, 3723, 3724, 3725, 3726, 3727, 3728, 3729, 3730,

WORLD HAPPENINGS BRIEFLY TOLD

The first car of 1926 which was shipped from the Hensford district, Main, Maine.

Unemployed for 32 years, the Yel-Jessamine National Park jail was closed.

Leon B. Kammoff, the deposed commander of trade, is currently reported, will soon be appointed as Soviet ambassador at Tokyo, succeeding Victor Kopp.

A hundred million dollar farm credit to afford relief to farmers soon will be under consideration by President Coolidge and several New York bankers.

Germany will not join the League of Nations until it has an absolute guarantee that the promises made at Locarno and Geneva in exchange for its promise to enter the league will be fulfilled.

Rev. Brother Theodor de Bult, O.M.I., well known as a designer of Catholic churches and missions, is dead in his 52nd year. He had designed offices in all parts of the Dominion.

Development of two processes for the distillation of coal at low temperatures, which, it is predicted will solve England's coal famine, has been announced by the International Combustion Engineering Corporation.

J. Antonio Deady, 49, well known Montreal business man and publisher of Le Petit Courrier, a Montreal weekly, his review, was found shot to death in his office. It was at first thought that he had died a natural death, but an examination at the morgue led to the discovery of a bullet in his back.

The total wheat crop apparently will be slightly above that of last year, according to estimates received by the department of agriculture in Washington. Demand, however, may be stronger because of low stocks of old wheat, reduced supplies of rye and potatoes and short wheat crops in the Orient.

Crime in Chicago

Lack of Law Enforcement Blamed For Failure to Check Outlaws

Commenting on the latest gang killings, Mayor A. Collins, Chicago police chief, has revealed that in the last 12 months his policemen have killed 100 robbers, that gang warfare has cost 24 lives since January 1, and that more than 1,000 blind pigs or saloons have been raided.

"There is really nothing the police can do to stop gang killings," Collins said. "The gangsters have their own organizations, and they claim the city and when they want something they take it. The police have their hands full protecting the lives of respectable citizens. If you can kill each other we don't care very much."

Collins blamed "unapproachable" for the department's failure to check the crime wave.

Trotsky Again in Power

Has Again Become Red Leader in Russia

Leon Trotsky has again become the Red leader of Russia. He has displaced Gregory Zinoviev as leader of the radical opposition to the more moderate central executive committee of the Communist party, which controls the Soviet state machine.

Zinoviev first advised the report that he has grown within the past few days to a formidable party, and Zinoviev has yielded to the superior leadership of Trotsky. The struggle between the two Reds led by the latter and the state machine under control of Dzhigalov has begun, making the first real election in the Communist ranks in the nine years it has been in power.

Why Channel Baffles Swimmers

Many Theories to Contend Against Although Distance Is Not Great

It is no the distance of the Channel, 22 miles that baffles those who attempt the channel swim. A channel swimmer is forced to swim against a current in the middle of the English Channel, following a zig-zag course after battling with the distance down to the provincial end. The water is unusually salty, roughening, and in the middle of the storm. The temperature of the water is about 50 degrees Fahrenheit. The idea of the swim is to swim from the beach and back every 15 hours. The swimmers swim in the water for two miles, but this has never been done.

England's great police force are conducting systematic experiments designed to make child disappear in the future.

Canadian Development (By C. W. Peterson)

It would be well for Canada to take stock of herself, her resources and her institutions and commence to formulate national aims in keeping with her peculiar conditions and limitations. There are, for instance, no natural blocks in respect to our population requirements? Should we aim at the status of Russia with 15 per cent. of the world and 45 per cent. of the population, or should we strive to reach the standard of the United States with 67 per cent. of the world and 22 per cent. of the population? At what point lies the normal equilibrium for Canada? Obviously, such questions as these must be answered approximately before we can attempt to construct intelligent, rational development policies. Some years ago an "Economic Commission" was created by our Federal Government to give us the answer. It never made a report and died on the job.

Thinking persons can, however, all agree on one point, namely, that on present agricultural population is ridiculously out of proportion to the vast area of our agricultural lands as well as west, largely fit for settlement. There can be no manner of doubt that this condition must be remedied as promptly as humanly possible. It constitutes, in fact, our great national tragedy. As was suggested at the last Dominion Bureau of Trade conference, Canada's best brains should be concentrated for public service and focused on correcting this inequity, uneconomic state of affairs, because we can have no lasting prosperity until increased agricultural production overcomes our present greatly overextended industrial, governmental and transportation plant.

There is, however, a deplorable absence of intelligent opinion in Canada on the vital question of colonization. The important sectional groups are at present even in violent hostility to public expenditure in this direction. The industrial and commercial groups on the other hand, are not at all interested in the matter. The need of Canada has a patriotic task to perform in bringing the actual facts before their readers and creating a public opinion on this issue. Because government is responsible for the nation's only obedience to the will of the people. The initiative, therefore, must come from the great body of Canadian citizens rather than from their government.

Price May Open Building

New Canadian Hotel in Paris is Almost Completed

A list of the Principles of Values in Paris is now under consideration. It is understood he promised two years ago that, if possible, he would open his hotel within six months of its completion for the accommodation of Canadian students in the City Universitaire in Paris. This has been designed to accommodate Canadian students at a cost of approximately 2,000,000 francs, given for the purpose by the Government of the City of Paris. Hotels planned for French students, both men and women, and obviously inspired by Oxford colleges, were opened last autumn. The City Universitaire, when completed, will be one of the most interesting groups of accommodations in Europe. The buildings are being erected on the spot where the old fortifications of the city of Paris stood. Out of the 22,000 students now at the university, 2,200 come from other countries.

Decrease in Unemployment

Figures For June Show Large Numbers Added to Payrolls

Report on employment received by the Dominion Bureau of Statistics from firms with a minimum of 10 employees, shows a decrease in unemployment in June. The number of persons added to the payroll during June was greater than in the same month of any previous year. At the beginning of July the number of persons added to the payroll from 5,585 firms, employing 8,007,178 workers against 8,009,619 in the preceding month.

At the beginning of July the percentage of unemployment among the firms of local trade industry was 4.3 as against 4.5 in the preceding month. The number of persons added to the payroll during June, 1926, and 6.1 at the beginning of July, 1925.

Predicts Early Fall

Early arrival of cold weather is predicted by Prof. Gayle H. Walker, of the University of Northern Iowa, from the congregating of purple martins near the campus.

WESTERN CANADA GOLF CHAMPION

NED MCKENNA, golf pro at Miramichi, the Canadian National Golf Champion, who captured the open and professional golf championship of western Canada during the recent tournament held in Winnipeg.

Notable Revival In Trade

Business Activity in Canada is Maintained At A High Level

Stimulated by the profitable increase in employment in July, 1925, and by the prosperous conditions in the United States during recent months, business activity in Canada was maintained at a high level during the first half of 1926. Construction was especially active from April to July, the railway construction in May reaching a record for all time. Revenue car loadings were also greater in the second quarter, when the railway and steel industries operated at a comparatively high level of activity with orders for the railways and construction industry. Industrial employment showed significant improvement during the first half of the year, attaining in July a 1.3 per cent. higher than on the corresponding dates of any year since 1920.

Following the pronounced expansion recorded at the beginning of June, there was a further important increase in employment on July 1, when the payrolls of 5,585 operating firms aggregated 8,007,178 persons, or 20,009 more than in the preceding month. These additions to staff exceed those reported on the corresponding date of any previous year and the index of employment, at 105.7, now stands higher than in any other month since 1920. With the exception of logging, in which there was a seasonal decline, all groups of industries reported improvement, that in construction being the most extensive.

Modern Advertising

Is Much Less Expensive Than Older Methods of Selling

The old method of advertising adds to the cost of goods that have been marketed by the advertiser. It is a machine to add in distribution. The public never knows the cost of a machine, but it knows the cost of a machine's product. The advertiser's plant which adds to volume production. If the public didn't pay for the new machine it would pay for the cost of the machine. The advertiser's plant which adds to volume production. The advertiser's plant which adds to volume production.

Huge Production For Population

The density of population in the world continues to multiply 2.5 per cent. per square mile, says the population in 1925, produced 238,455,000 bushels of grain, 222,254,000 bushels of corn, 214,000 bushels of barley and 11,541,000 bushels of oats, besides other crops. In comparison, the United Kingdom has 229 persons per square mile.

Energy From Atoms

Harassing Radio Active Substances Not Impossible of Attainment

Chemists, in their search for a means of releasing the energy of atoms and other radio active substances, are leading toward either catastrophic destruction or unlimited riches for the world, speakers at the 12th Institute of Politics meeting held recently.

Dr. Umberto Pomilio, Italian chemist, predicted that the secret of releasing energy from atoms would be discovered within the next 25 years, and declared that the certain progress of science toward releasing and harnessing radio active substances points toward either destruction or unlimited riches.

In his discussion of radio active substances and the plant energy he contains, Dr. Pomilio pointed out that two tons of uranium have enough stored energy to light New York city for an entire year. The magic formula for utilizing this energy is being sought by chemists who are convinced that the goal is not impossible of attainment, he said.

Dr. Pomilio asserted that the ancient alchemist's dream of converting base metals into gold would in time be realized by modern chemists, but that the process of this conversion would have no commercial value in the production of gold because of the high cost of the transformation.

Volcanoes, along with the fire atom, are also potential slaves to be put to work for mankind. Sir Frederick Soddy said. He pointed out that Italy has harnessed her volcanoes and natural steam jets to develop power.

Plan Is Condemned

Scheme to Put Advertisements on Postal Date Stamps is Scored

The new scheme of Britain's chancellor of the exchequer, Winston Churchill, to raise money for the government, the inclusion of advertisements on date stamps affixed to postal matters in the post office, is being opposed by a considerable body of opinion among traders and others.

London merchants object to the prospect of circulars mailed by them being sent out from the post office bearing recommendations for the purchase of goods from retail establishments.

May Accelerate Growth

Worked on Rate

Sixty-fourth day at 65 years old will be possible. If advertisements can ever apply to human beings the process used on some white rats recently by the public commission of Saskatchewan has succeeded in speeding up the growth of rats by special diet so that they attain full growth in only twenty-five days as compared with the ordinary time of ninety-four days. The special food ration contains a liberal amount of lettuce, liver and yeast, and is especially rich in protein.

Vast Canadian Territory

Saskatchewan Police Travel Thousands of Miles Each Year

Some idea of the immense extent of Canadian territory and the organization needed for its administration is well illustrated by the annual report of the police commissioner of Saskatchewan. In 1925 the provincial police force of that province travelled nearly 1,000,000 miles to make some 10,000 investigations. This represents over 5,000 miles per man, of which only one third was made by railway.

Pattern No. Size

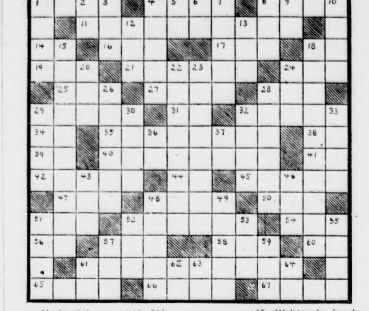

Name

Town

Requires Some Work

It takes 15,000 men a full working day to gather and prepare a pound of lumber, while to make a few tons of Canadian lumber is now sold in regulated grades, and it is finding ready sale in Europe and elsewhere, where the excellent flavor and graining is highly prized.

OUR CROSSWORD PUZZLE

Answer to Last Week's Puzzle

New French War Device

British Air Officers Interested in

A platoon of British air arm is said to be the latest deadly weapon which France is preparing to use against her enemies in the future. This steel-cased airplane is said to be in time of war, dash straight at a formation of enemy aircraft, weaving before them. British air service officials are intensely interested in the reports of the new death dealing device, for they realize that if it is perfected, it will play havoc with close formation flying, the backbone of the British air tactics. The new machine plane is said to be made that it can be directed either by radio from the ground or from the cockpit of an accompanying plane. Observers claim that they have seen the pilotless "ram" loop the loops and go through nearly all the stunt tactics of which a piloted ship is capable.

Labor Reforms Sought

Canadian Labor Party Wants National Minimum Wage For Dominion

A national minimum wage for the Dominion and a five-day week throughout the country were two of the planks devised upon by the platform of the Canadian Labor Party which held a meeting in the Labor Temple at Toronto. Other planks in the platform were endorsed as follows: Old age pensions on a federal basis; unemployment and health insurance; abolition of the Canadian navy; the discontinuance of naval training in public and high schools; the abolition of child labor under 16 years of age; a minimum living wage for all young workers; the repeal of all anti-labor legislation.

Phones in Saskatchewan

Since 1910 the province of Saskatchewan has erected 5,151 miles of telephone lines, has opened 291 exchanges, and 364 toll offices. There is a telephone installation for every eight of the population.

Luck may come and luck may go, but rest much hangs on luck.

for Economical Transportation

Forty feels like Twenty in the Smooth Chevrolet

NEW joys await you in the smooth Chevrolet. Here the exhilaration of speed is combined with a quiet, effortless performance that betokens twenty rather than forty or fifty miles per hour. Here is no need to raise your voice to be easily heard, no matter how fast you may travel.

Here is an absence of vibration that you never dreamed a four-cylinder car could possess.

Here is Economical Transportation coupled with a comfort almost luxurious in a car that reflects in its appearance the quality which makes possible such smooth performance.

To realize how fully the smooth Chevrolet answers your every need and desire—you must see it—ride in it—drive it.

Then—and then only—can you appreciate how amazing is its Value.

The GMAC Plan provides an economical method of paying for your Chevrolet on time.

The Smoothest Chevrolet in Chevrolet line. Chevrolet's lowest priced car which Chevrolet has ever sold in Canada.

HERE AND THERE

Light snow has fallen in this part of Alberta this week. It is reported to have been much heavier further north in the province, at some points as much as six inches.

Two world's swimming records were established at the Crystal Gardens swimming pool at Victoria recently, when Ethel McGarry, of New York, swam 800 yards in 12 minutes and 41 seconds, or nine seconds better than the previous woman's record for this event; and when Agnes Garaway, also of New York, swam five and two-fifths seconds off the previous record for 200 yards, by completing the distance in three minutes and 12 and three-fifths seconds.

Celebrating the change in name of the historic Dominion Express Company to that of the Canadian Pacific Express Company, a street parade in Montreal was held September first, the day of the change in name, consisting of every description of Express vehicle, new and old. Som Nightingale, a driver of 30 years' service, headed the parade seated in a wagon of 1900 vintage, and handled by "Babe," a horse that has been in constant service with the Company for 19 years. Similar parades were held at Toronto, Winnipeg and Vancouver.
